**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Most local ISPs have a local monopoly, preventing any sort of real choice: you either get DSL or Cable, each with only one provider. The provider then lower their services, upcharge, and in general, harm consumers. We NEED competition for consistent internet, options, and effective internet access without excessive price gouges or just complete lack of choices. You should be pro business, which means we should also be pro competition.

David Hsu
